OUR STORY

At The PUP Foundation, we believe some of life's most meaningful connections come with four paws.

Founded on a shared passion for serving others, Gabriela Birkner and Emma Genig came together through a belief in the power of companionship. Inspired by their experiences in senior living, a love for seniors and senior pets, and a desire to make a difference, they envisioned a mission that brings older adults and animals together, creating meaningful connections and loving homes.

One paw. One heart. One connection at a time.
